VISION

# Accelerating innovation that changes the world

We are changing the world of manufacturing, true to our:

MISSION

## Manufacturing the world loves

# ABOUT KREATIZE

**50**  
EMPLOYEES

**200**  
MANUFACTURERS

**3**  
LOCATIONS

Access to global  
manufacturing services

Superb performance, quality  
and customer service

Seamless scaling from 1  
to 1m parts

100% CO<sub>2</sub>-neutral supply  
chain

LEADING COMPANIES TRUST US

# OUR MANUFACTURING CAPABILITIES

A close-up photograph of a CNC milling machine in operation. A multi-fluted metal end mill is cutting into a dark, cylindrical workpiece. A high-pressure water jet is directed at the cutting point, creating a large spray of white coolant mist and small metal chips. The machine's structure is dark and industrial.

## CNC machining

Milling (3-, 4- and 5-axis), turning & post-processing

A photograph of a 3D printing process, likely Selective Laser Melting (SLM). A bright, intense orange laser beam is focused on a powder bed, creating a series of vertical sparks as it melts the material. The background is dark, with some industrial components visible.

## 3D printing

FDM, SLA, SLS, MJF

A close-up photograph of a laser cutting process on a sheet of metal. A bright orange laser beam is cutting through the metal, creating a narrow kerf. The metal is a dark, industrial blue-grey color. The background is dark and out of focus.

## Sheet metal

Laser cutting, waterjet cutting, bending, post processing

## Outsource Your B&C Parts

Focus on your **A-part portfolio** and let KREATIZE manage your **longtail** with ease. In doing so, Kreatize will **reduce your B&C parts costs by 20%**, improve your process costs by 80% and leave you with significantly fewer active suppliers.

B&C parts are creating unproductive overhead. We want you to focus on your crucial A-parts and fully source the segment of B&C parts through our **plug-and-play cloud manufacturing solution**, which saves you time and money by automating the procurement of these parts.

**BUSINESS  
IMPACT**

**-20%**

CHEAPER PARTS ACROSS YOUR B&C PART PORTFOLIO

## HOW LEADING COMPANIES ADDITIONALLY BENEFIT FROM CLOUD MANUFACTURING

### 1 Agile Product Development

As engineers you can get instant access to manufacturing services by using KMS. **Reduce** your **costs by 70%** with the Design-to-cost approach and the pricing information of KREATIZE.

Cloud manufacturing no longer requires you to rent or own machines, you are not constrained to specific materials or processes, and you are free to produce products with innovative technologies without time-consuming iteration cycles.

**BUSINESS  
IMPACT**

**-70%**

COST REDUCTION WITH DESIGN-TO-COST  
APPROACH

### 2 Hedge your capacity

**Increase your total available capacity** with our Cloud Manufacturing solution. KREATIZE provides you with **resilient lead times** and continuous **free capacities** that make your **supply chain 100% resilient**.

It is not always easy to forecast your demand over a period of time especially in project-related purchasing. We want you not to worry about your supply chain by making use of our **plug-and-play cloud manufacturing solution**, while keeping your supplier network lean, agile and your maintenance cost low.

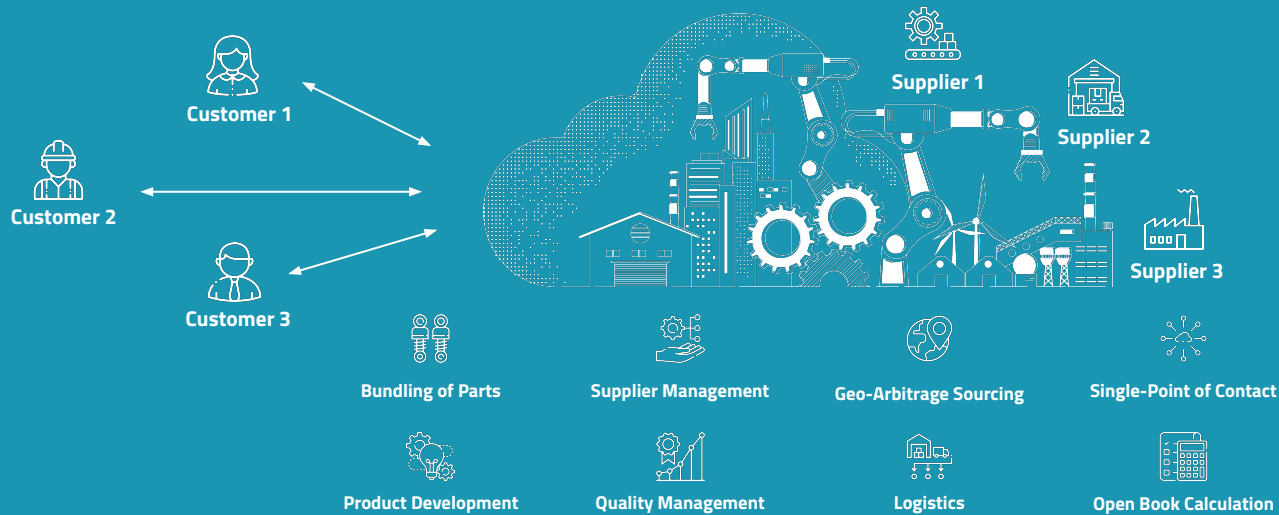

**BUSINESS  
IMPACT**

**100%**

RESILIENT SUPPLY CHAIN

# HOW IT WORKS

## CLOUD MANUFACTURING PLATFORM

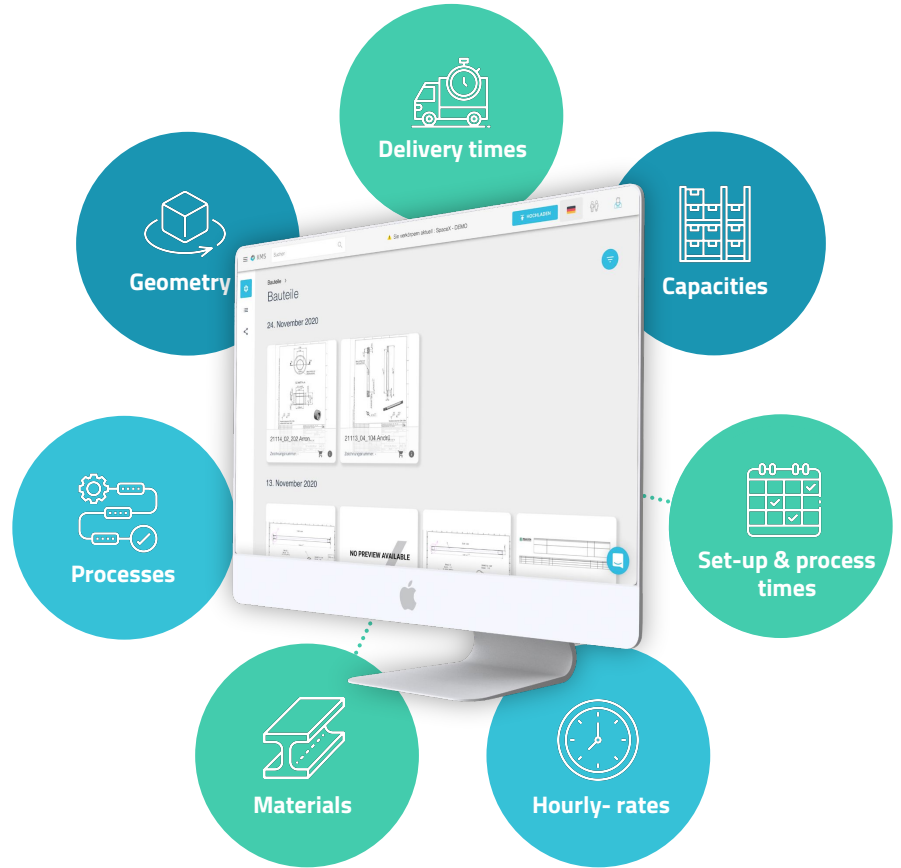

With our innovative software we channel a multitude of information

Thanks to our specially developed **intelligent procurement platform**, we can fully automate and streamline the procurement process of your mechanical parts.

▶ Product Demo

# Trusted by industry leaders

We now procure many of our components through KREATIZE and are convinced by the **transparency of processing, delivery reliability and price competitiveness.**

**Mr Voswinkel**  
Head of Production

### IMPACT

- ★ 100% outsourced procurement activities
- ★ 80% of Total Cost of Procurement eliminated

KREATIZE has **revolutionised** the procurement of special machining parts in a modern and pleasant way!

**Mr Jung**  
Purchasing Manager

### IMPACT

- ★ Eliminated RFQ process
- ★ Reduced Procurement time to 50%
- ★ In total 30% less Total Cost of Procurement
