Key facts FY2023

What do we do?

We maximize organizational efficiency and security.

A man in a grey t-shirt is running on a treadmill in a gym. He is holding a smartphone in his right hand and has white earbuds in his ears. In the background, other people are also on treadmills.

FITNESS

A man and a woman are riding a roller coaster. The woman is screaming with her mouth wide open, and the man is smiling and holding onto the safety bar. They are both wearing jackets.

ATTRACTIONS

A group of people are working in an office. A woman in a black lace top is looking at a laptop screen. Other people are visible in the background, some working at desks and others standing.

CORPORATE

A group of students are walking towards a modern building with a large glass facade. One student is carrying a backpack, and another is carrying a bag. The building reflects the surrounding trees and sky.

EDUCATION

Efficiency and security by solutions!

HARDWARE

SOFTWARE

SERVICES

Supply Chain - Outsourced Manufacturing

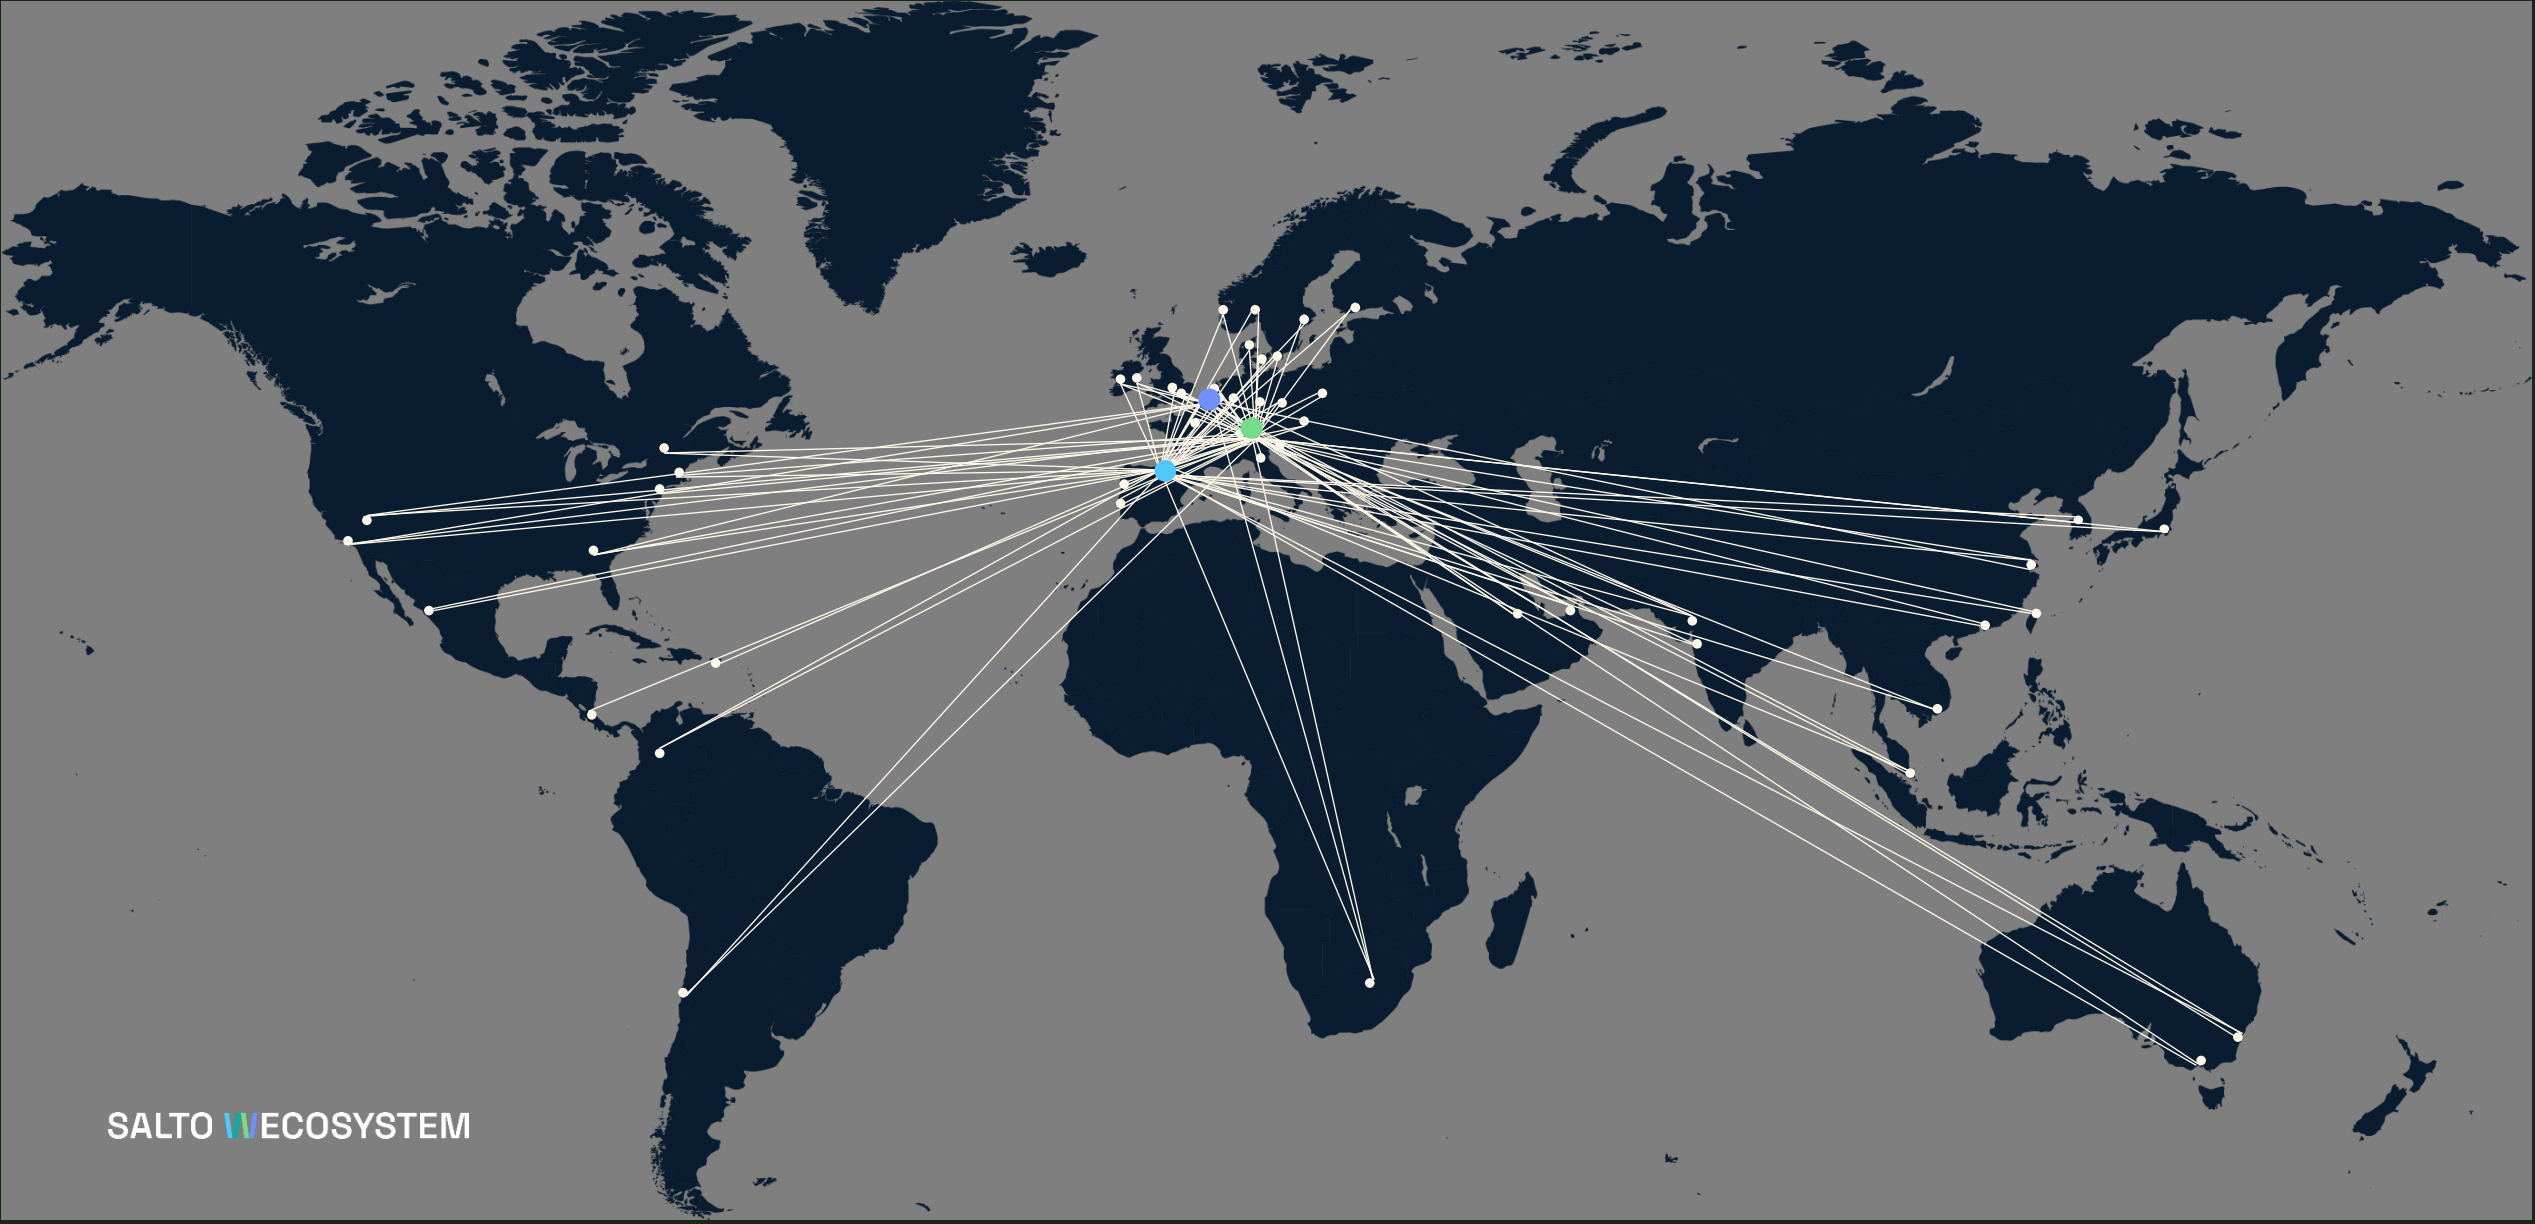

Outsourced manufacturer services

We are connected!

-
- Over 40 companies worldwide
 - Customers in over 70 countries
 - To be in time
 - Highest reliability & quality
 - Fulfillment of legal requirements

We are connected!

More challenges ...

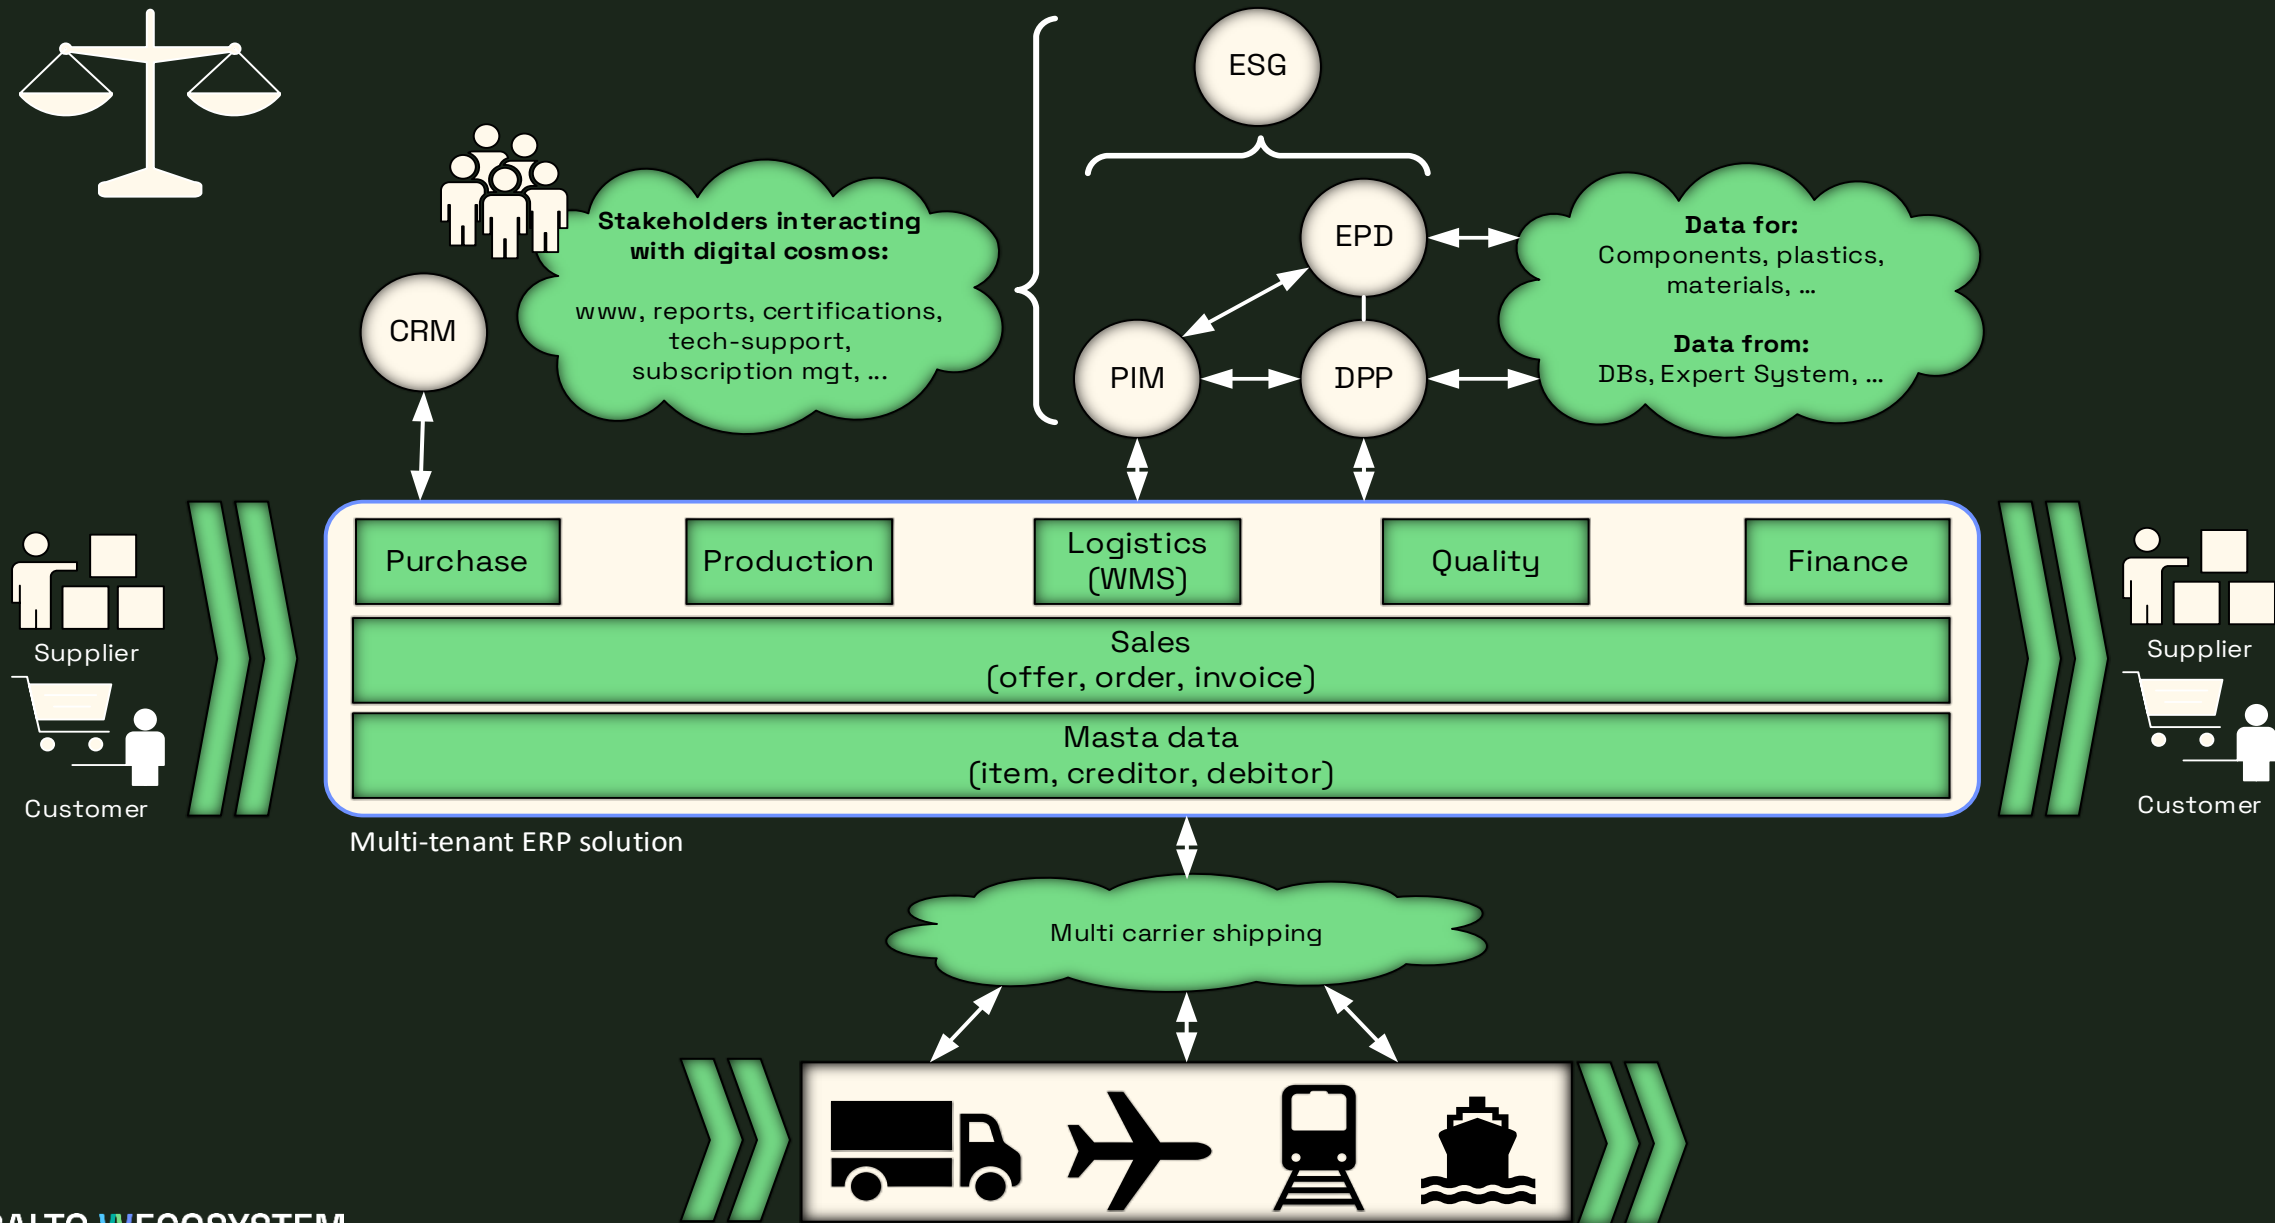

- > **WEEE** (Waste Electrical and Electronic Equipment Directive / Elektro- u Elektronik-Altgeräte)
- > **ROHS** (Restriction of Hazardous Substances Directive / Richtlinie zur Beschränkung gefährlicher Stoffe)
- > **REACH** (Registration, Evaluation, Authorisation and Restriction of Chemicals / Registrierung, Zulassung, Beschränkung und Bewertung chemischer Stoffe)
- > **RED** (Radio Equipment Directive / Funkanlagen Richtlinie)
- > **GDPR** (General Data Protection Regulation / Datenschutz-Grundverordnung)
- > **NIS2** (Network & Information Security Directive / Sicherheit von Netz -und Informationssystemen)
- > **CSRD** (Corporate sustainability reporting Directive / Richtlinie über die Nachhaltigkeitsberichterstattung von Unternehmen)
- > **ESPD** (Ecodesign for Sustainable Products Regulation / Umweltgerechte Gestaltung energieverbrauchsrelevanter Produkte (kurz: Ökodesign-Richtlinie))
- > **CSDDD** (Corporate Sustainability Due Diligence and amending Directive / Lieferkettensorgfaltspflichtengesetz)
- > ...

Mastering the challenges

- Be as "digital" as possible in all processes (internal - inter company - external)
- Master data management
- Linking of data
- Legal compliance
- ...

04

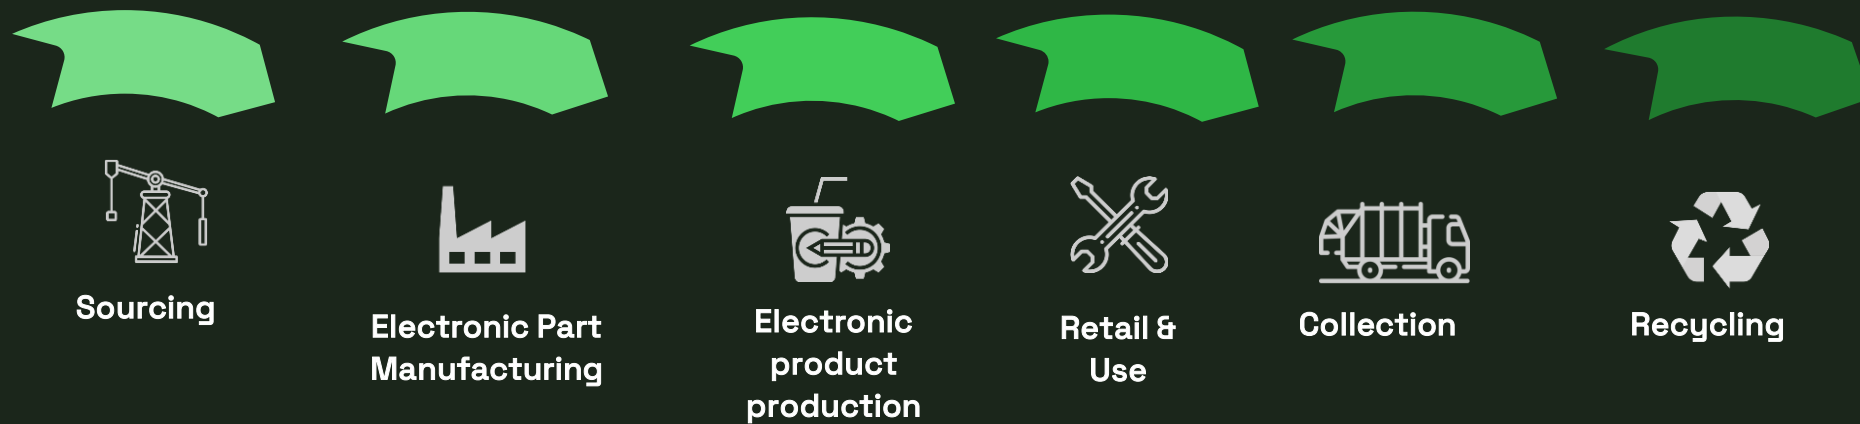

Thinking and acting in cycles

“Think globally, act locally”

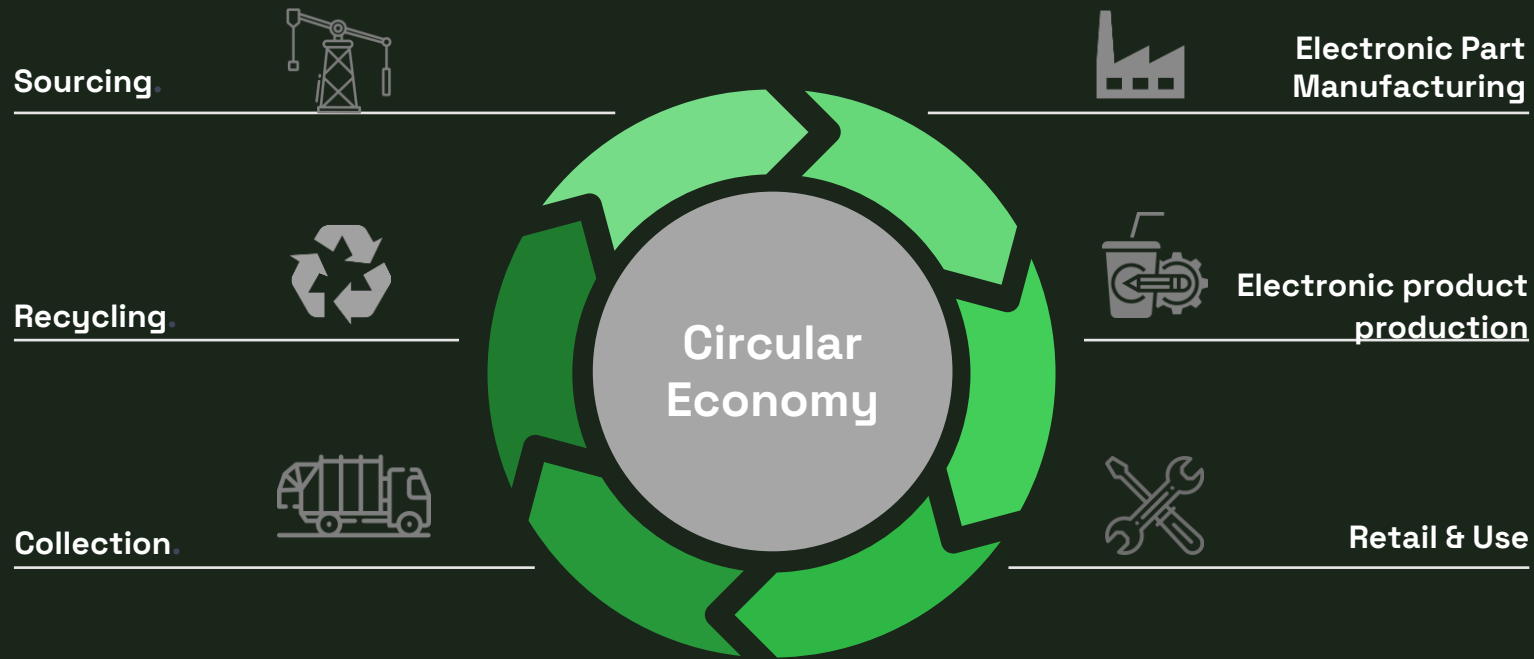

Re-think the “supply chain” ...

> From a linear approach ...

... this is to become the circle of resources.

- > ... to a circular approach.
- > Collect / process data along the supply chain and across the product life cycle and make it available in a structured way for a sustainable world.

Thank you!
